OVERVIEW

Award-winning Executive / Senior Producer with a sharp design eye, strategic mindset and hands-on approach to execution.

I carry brand ideas through motion, CGI, film, integrated campaigns and live events, drawing on twenty-five years across broadcast, agency and client-side teams. My international experience spans Europe, the Middle East and global markets, adapting quickly to new studios and ways of working.

I translate between clients, designers and technical teams, aligning priorities and making clear decisions about scope, resources and budgets. I build the systems that keep complex projects moving, from single films to launches of hundreds of assets, while protecting the creative idea.

SELECTED CREDITS

Brand Identities, Motion & CGI

ITVX Launch

Senior Brand Producer | DixonBaxi / ITV Creative

Joined the DixonBaxi team on the multi-award-winning ITV rebrand and ITVX launch, producing the ITVX element through production and final delivery. Ran daily check-ins, resourcing and scheduling across cross-disciplinary teams and client stakeholders, and set up the delivery systems that kept hundreds of assets moving as timelines changed. Translated briefs between client and studio, and sequenced dependent work such as brand guidelines against client, stakeholder and internal sign-offs. Also produced the ITVX sonic ID, including its negotiation.

MINI “Big Love” CGI Campaign

Senior CGI Producer | Media.Monks / Man vs Machine

Led the final phase of the CGI campaign, aligning agency, studio and client teams through new review systems. Oversaw retouching, versioning, Clearcast and ad-serving delivery across territories.

Guns N’ Roses World Tour Visuals

VFX & Show Visuals Producer | Creative Army

Produced large-scale CGI and animation for stadium performance, coordinating capture, rigging, animation, lighting and compositing.

Integrated Brand Experiences

Experience AIUla

Executive Producer | Aura / Royal Commission for AIUla, Saudi Arabia

Established production for an integrated film, CGI and live-event cultural campaign, with hubs across Europe and the Middle East.

Publicis Sapient Brand & Digital Portfolio

Senior Producer / Production Lead / Project Manager

Campaigns and digital experiences for Lloyds Banking Group, Halifax, Lufthansa, Morgan Stanley and Amplifon, spanning CGI, film, web and app builds. Amplifon won a Cannes Cyber Lion.

Canon Campaigns, Launches & Live Events

Producer / Director | Recurring client relationship

Long-term production and direction across campaigns, launches and London Fashion Week content.

Philip Morris International · Global Studio

Creative Producer / Director / Project Manager | Philip Morris International

Produced multiple global campaigns for the company’s transformational rebrand, managing cross-platform content across live action, motion graphics and digital from concept to worldwide delivery. Translated complex briefs into clear content, managing reviews and versioning across stakeholders and editors. Thought-leadership films on the move to a smoke-free future were shown at Davos and other policy events.

● HOW I WORK

Systems that stick

I set up ways of working that teams actually adopt.

Clients & stakeholders

I listen, manage expectations and keep agency, client and production teams aligned.

Both sides of the table

Client-side, agency and production experience.

Structure with creativity

Instinctively strategic. I bring structure without flattening the creative idea.

Pitch in

Can-do, with humour and a human touch.

Creative problem-solving

A creative eye on every brief, solving problems collaboratively with the team.

● CREATIVE PRACTICE

Ongoing professional development in creative thinking, psychology and collaborative practice, bringing a more considered approach to team leadership, problem-solving and the way projects are structured and delivered.

Creative Therapy Practitioner Certification

Accredited CPD • creative therapeutic practice, psychology & reflective practice

Creative Health Foundations • Arts & Health Hub

Creative practice, team development & project management

Custō • Independent Platform Development • 2023 – Present

Creation and ongoing development of a new design-led customisation platform, rethinking how customers personalise and create products online. The project brings together e-commerce, user experience, production systems and emerging AI tools, with a focus on making customisation more intuitive, creative and scalable.
